

#CSI3140: Deliverable 2

Aditya Nair 300076404

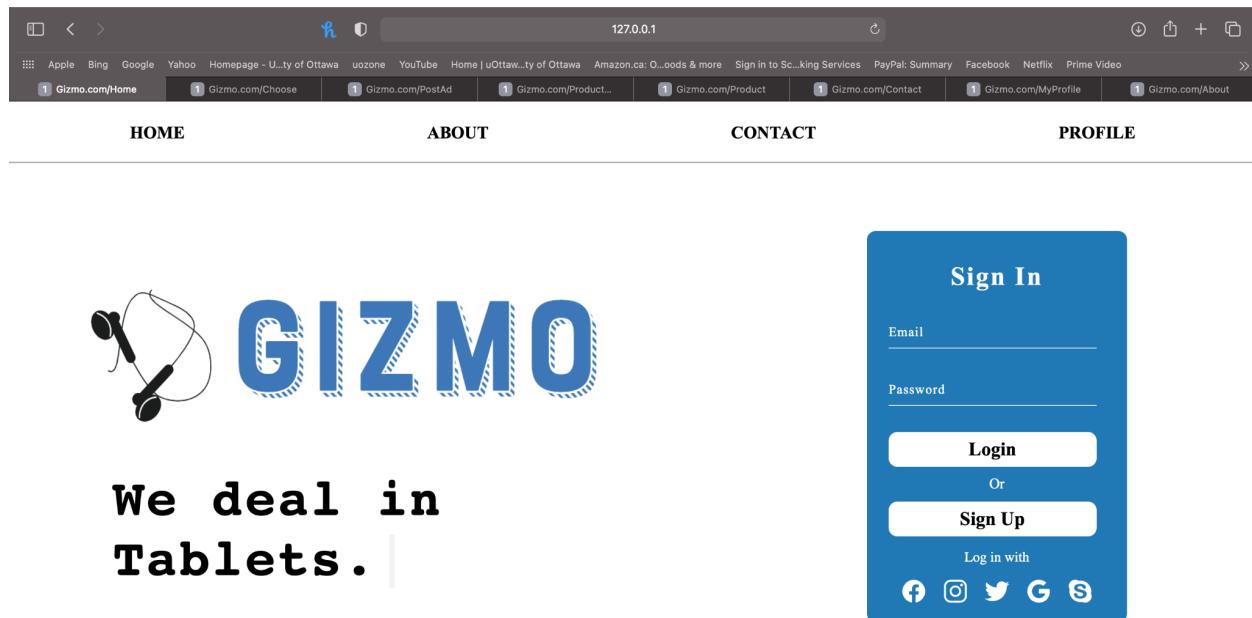

Ribhav Khosla 300087647

The deliverable includes all the web pages for our project “Gizmo”. The webpages are made using HTML, CSS, and some javascript.

Table of Contents:

1. Mock-Ups
2. Color Pallet
3. Fonts and Type Scale
4. Icons/Images
5. Buttons and Form Elements
6. UI Components

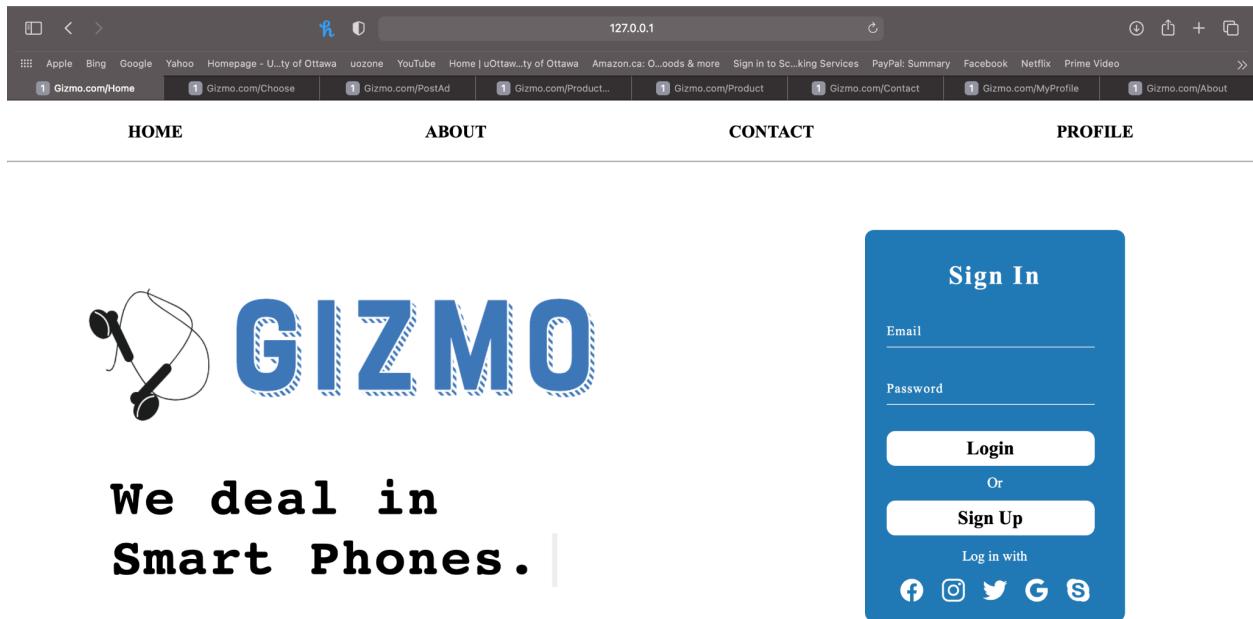

Mock-Ups

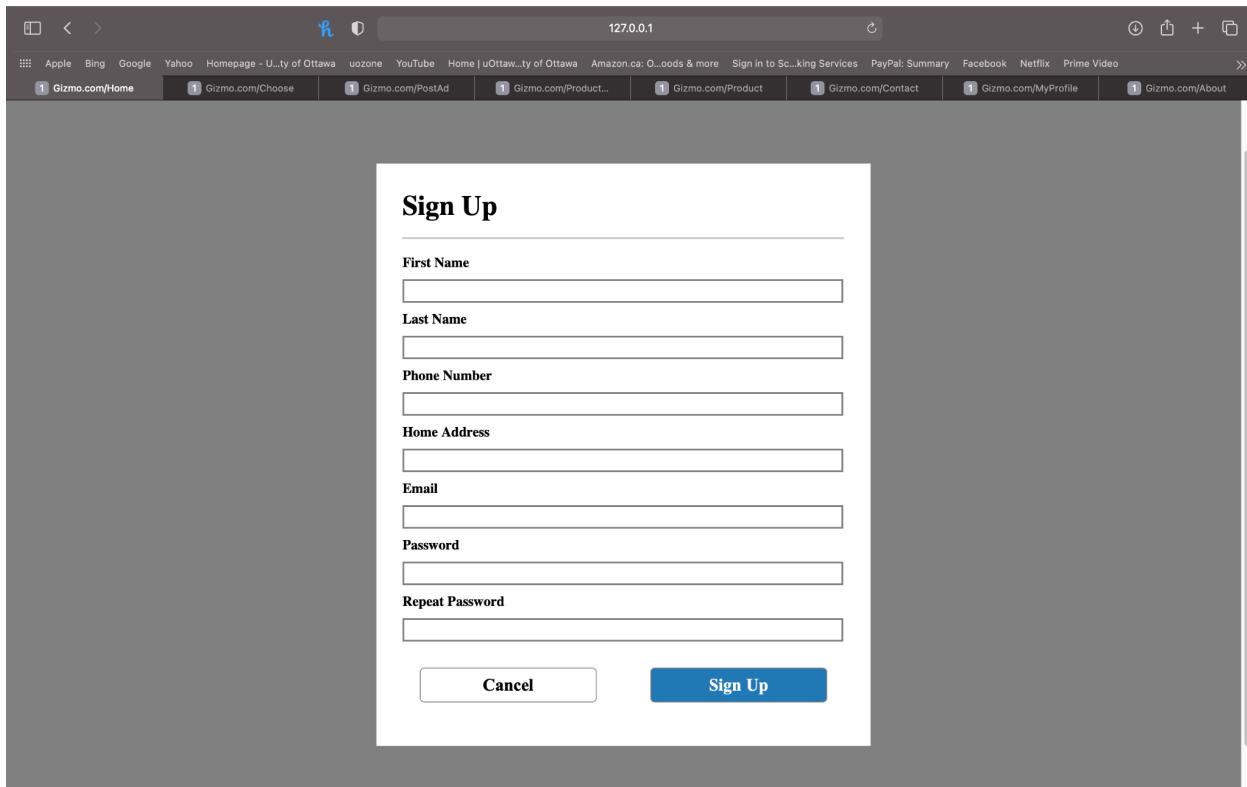

Screenshot of welcome.html

This is the homepage of the website. On this page, there is a top bar that has Tabs to go to different pages of the website. On the left side, we have our Logo and an animation depicting

different categories we deal in. On the right side, we have the SignIn/ SignUp section. Clicking on the “Sign Up” Button we will see a popup with a sign-up form.

Screenshots of welcome.html

Screenshots of the popup when “Sign Up” is clicked on welcome.html

On the signup popup the user can register an account for himself.

[Post an Ad](#)

[Buy Stuff](#)

Screenshots of choose.html

On the *choose.html* page a user is given an option to choose if he is looking to buy something or sell something. If he clicks on “Post an Ad” he will be taken to the *postad.html* page and if he clicks on “Buy Stuff” he will be taken to the *buyer.html* page.

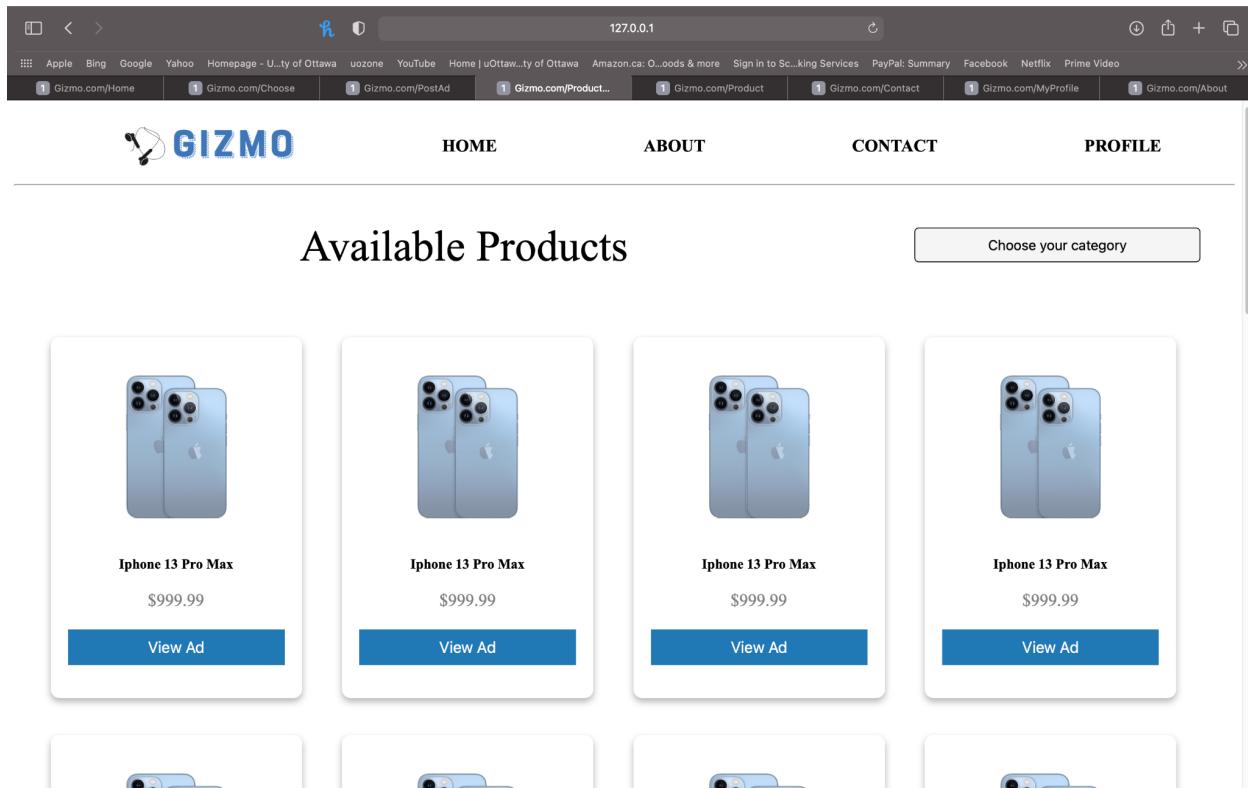

The screenshot shows a web browser window with the address bar displaying "127.0.0.1". The page title is "GIZMO". The navigation menu includes links for HOME, ABOUT, CONTACT, and PROFILE. A prominent blue header bar contains the text "Post an Ad". Below this, there are several input fields for posting an ad:

- Name/Title**: An input field with placeholder text "Enter Title".
- Price**: An input field with placeholder text "Enter Price".
- Condition**: An input field with placeholder text "Enter Condition".
- Category**: A dropdown menu currently set to "Phone".
- Description**: An input field with placeholder text "Enter Description".
- Location**: An input field with placeholder text "Enter Location".
- Contact Information**: An input field with placeholder text "Enter Contact Information".

At the bottom, there are two buttons: "Previous" and "Post Ad". The "Post Ad" button is highlighted in green.

Screenshots of postad.html

On *postad.html* the user can create an ad for something he wants to sell. He can click on the “Post Ad” button to publish the ad or he can click the “Previous” button to go back to the *choose.html* page.

Screenshots of *buyer.html*

On the *buyer.html* page the user can see all the available items for sale on the website and he has the option to choose a category from the “Choose your category” dropdown menu. Clicking on the “View Ad ” button will take the user to the product page of the item he selected with a full description and images of the item, which here is depicted by *item.html*.

The screenshot shows a web browser window with the address bar displaying "127.0.0.1". The page title is "GIZMO". The main content area features a large image of two light blue iPhone 13 Pro Max phones standing upright. Below this main image are four smaller thumbnail images of the phone from different angles. To the right of the images, the product details are listed:

Iphone 13 Pro Max

Price:
\$999.99

Condition:
Like New

Description:
Selling my 2 month old Iphone 13 Pro Max. It is in a very good condition. No scratches or dents.

Location:

Screenshots of item.html

The *item.html* page will show the description and images of a particular item, in this case, the item is an iphone. The 4 images in the bottom tab are clickable. If clicked an image is enlarged on the block above.

The screenshot shows a web browser window with the address bar displaying '127.0.0.1'. The page title is 'GIZMO'. The navigation menu includes links for HOME, ABOUT, CONTACT, and PROFILE. A main heading says 'Please fill out the form below to reach out to us.' Below this are three input fields: 'Name' (placeholder 'Enter your name'), 'Email' (placeholder 'Enter your Email'), and 'Description' (placeholder 'Enter Description'). At the bottom are two buttons: 'Clear' (in a white box) and 'Submit' (in a green box).

Please fill out the form below to reach out to us.

The about.html page gives the details about the website and the company.

The screenshot shows a web browser window with the address bar displaying '127.0.0.1'. The page title is 'GIZMO'. Below the title, there are five navigation links: HOME, ABOUT, CONTACT, and PROFILE. The main content area features a heading 'My Ads' followed by two identical card-like boxes. Each box contains an image of an iPhone 13 Pro Max and the text 'Iphone 13 Pro Max'. To the right of these cards is a large blue box titled 'My Profile' containing user information: Name (John Doe), Phone Number (+1(343)-XXXX-XXXX), Home Address (100 Sandy Ave, Ottawa, ON, Canada), Email (randomrandom@email.com), and Password (qwertyuiop). A horizontal scroll bar is visible on the right side of the page.

Screenshots of profile.html

Color Palette

We wanted to keep our number of colors used to a minimum to give a concise and neat look for our website so we chose three colors: blue, white, and black as the main theme of our website. Green was used as a submit button wherever there was a form required.

	<u>Color:</u> #2179b5 Usage: Nav bar item hovering, Logo, Heading Highlights Background on texts, buttons background
	<u>Color:</u> #ffffff Usage: Background for all our web pages, text color, background on texts, buttons background
	<u>Color:</u> #000000 Usage: Used on the majority of the texts, Borders.
	<u>Color:</u> #008000 Usage: Only used for a submit button on a forms page

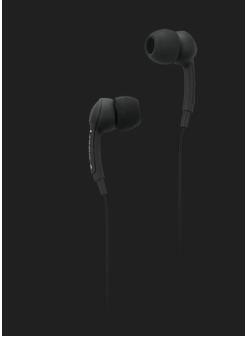

Fonts and Type Scale

Almost all the web pages are written using “font-family: 'Times New Roman, Times, serif;”. Except for in the welcome.html the looping message “We deal in Categories”, which uses “font-family: Courier”.

Icons/Images

Some Images that are used are supposed to be placeholders until the website is fully functional. Rest will remain permanent and become part of the final resulting website.

	Our logo for the website that was made on a website Retrieved from: https://looka.com/dashboard
	Placeholder Image that's used on the items page where user can view each product in a different angle Retrieved from: https://www.google.com/imghp?hl=en
	Placeholder Image that's used on the items page where user can view each product in a different angle Retrieved from: https://www.google.com/imghp?hl=en
	Placeholder Image that's used on the items page where user can view each product in a different angle Retrieved from: Apple.com

	<p>Placeholder Image that's used as a display on the items page where user can view each product in a different angle Retrieved from: Apple.com</p>
	<p>Image used in the About web page as a display to make the page look visually appealing. Retrieved from: https://www.google.com/imghp?hl=en</p>
	<p>Image used in the About web page as a display to make the page look visually appealing. Retrieved from: https://www.google.com/imghp?hl=en</p>
	<p>Image used in the About web page as a display to make the page look visually appealing. Retrieved from: https://www.google.com/imghp?hl=en</p>
	<p>Image used in the About web page as a display to make the page look visually appealing. Retrieved from: https://www.google.com/imghp?hl=en</p>

On the “welcome.html page” in the Sign In / Sign Up section, the icons on the bottom of the section are used from an external library which is imported from:
[“<https://unpkg.com/ionicons@5.4.0/dist/ionicons.js>”.](https://unpkg.com/ionicons@5.4.0/dist/ionicons.js)

Buttons and Form Elements

Most of the buttons that are used are non-functional for the time being with some exceptions. The buttons are:

- **Login** on *welcome.html*
- **Sign Up** on *welcome.html*
- **Post an Ad** on *choose.html*
- **Buy Stuff** on *choose.html*
- **Previous** on *postad.html*
- **Post Ad** on *postad.html*
- **View Ad** on *buyer.html*
- **Clear** on *contact.html*
- **Submit** on *contact.html*

We used three forms on our website. One for the user to create their account on the website, another to create an ad and post it, lastly a form to contact us (owners of the service) for any issues for the website.

UI Components

Our Four most prominent UI Components include the typing animation on our welcome page that types out all the products that we deal in from the source: “<https://cdn.jsdelivr.net/npm/typed.js@2.0.12>”. Another component is a pop-up form that we used for the user to create their account when they click on the sign up button in the welcome page. Hover component that changes the nav elements’ color scheme when the mouse hovers over them. “Choose your category” drop down menu on buyer’s page that shows you all

available categories of electronics a user can choose from that will filter the products belonging to the same category.
